

JOUR 4251

Psychology of Advertising

1.2 Functions of advertising / introduction to psychology

Personal statement & Course agreement

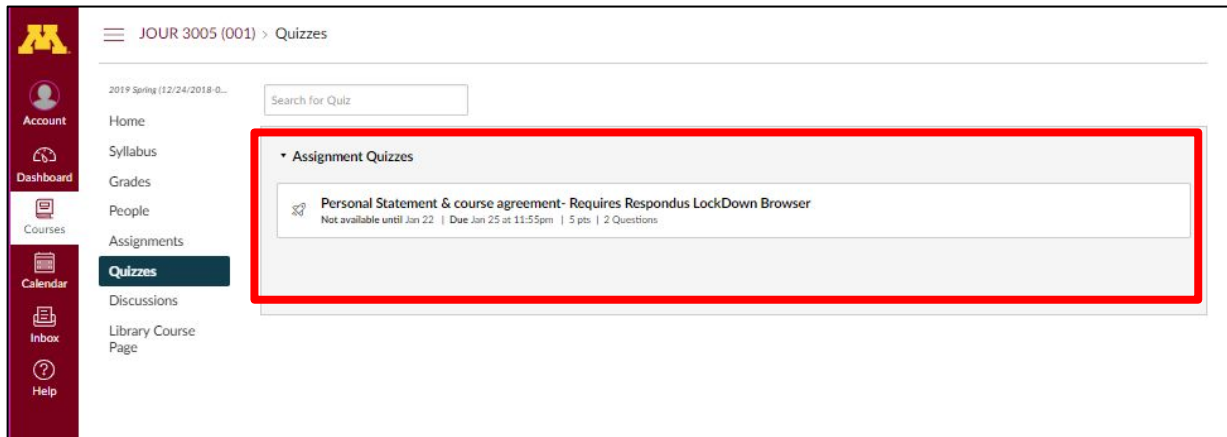

- First 5 points!
- Complete by Jan 30 before class starts (2:30 pm)

To do:

1. Please provide 5-10 sentences about yourself, including your interest in this course, your major, what you hope to gain from the course, and career goals. There are no right or wrong answers - this is your opportunity to tell us what you want to learn from the course and how your interests/career goals may relate to the course.
2. Read syllabus and ask questions about things that are unclear
3. Sign the course agreement to state that you have read and understood the course requirements.

Install LockDown browser
(Tip: on laptop that you are planning to use for the exams!)

INSTALL lockdown browser

1. Go to our Canvas page > Quizzes
2. Choose “Personal statement & course agreement”
3. Click “Take survey”
4. Click “Download respondus LockDown Browser”
5. Open LockDown browser > Choose Canvas (pilot)
6. Log in with own credentials and repeat step 2 & 3.

You can NOT make the assignment or take the exam without the LockDown browser.

Downloading may take some time.
Make sure it works.

Only have to download once.

Contact TA when having issues with downloading/opening LockDown browser.

Do NOT wait until the last minute!

DOWNLOAD LOCKDOWN BROWSER

Due No due date Questions 1 Time Limit None
Requires Respondus LockDown Browser

Instructions

THIS IS NOT A TEST/QUIZ.

Please use this to download the lockdown browser on the laptop you are taking the quiz on before SEPTEMBER 27 (first exam)

Take the Survey

Respondus LockDown Browser Required

This quiz requires Respondus LockDown Browser. Please launch Respondus LockDown Browser to take this quiz or view your quiz results.

If you have not already installed the browser, please download it from here: [Download Respondus LockDown Browser]

Recap

- Advertising
 - Paid
 - Placed
 - Consumer-based
- Brand
 - Unique Selling Proposition
- Why advertising?
 - Facilitates competition
 - Way to communicate with (potential) customers
 - Key source of funding for media and other industries

Functions of advertising

1. INFORM

Creating or influencing non-evaluative responses, such as beliefs.

2. PERSUADE

Generating or changing an evaluative response, such as that something is more favorable.

Depends on:

1. Type of Product
2. Type of Purchase
3. Lifecycle of the product (introduction, growth, maturity, decline)
4. Situation, crisis

Can you think of any examples of hard-sell or soft-sell advertising?
What works best for you? Why? Why not? In what context?

Approaches

Hard-sell approach

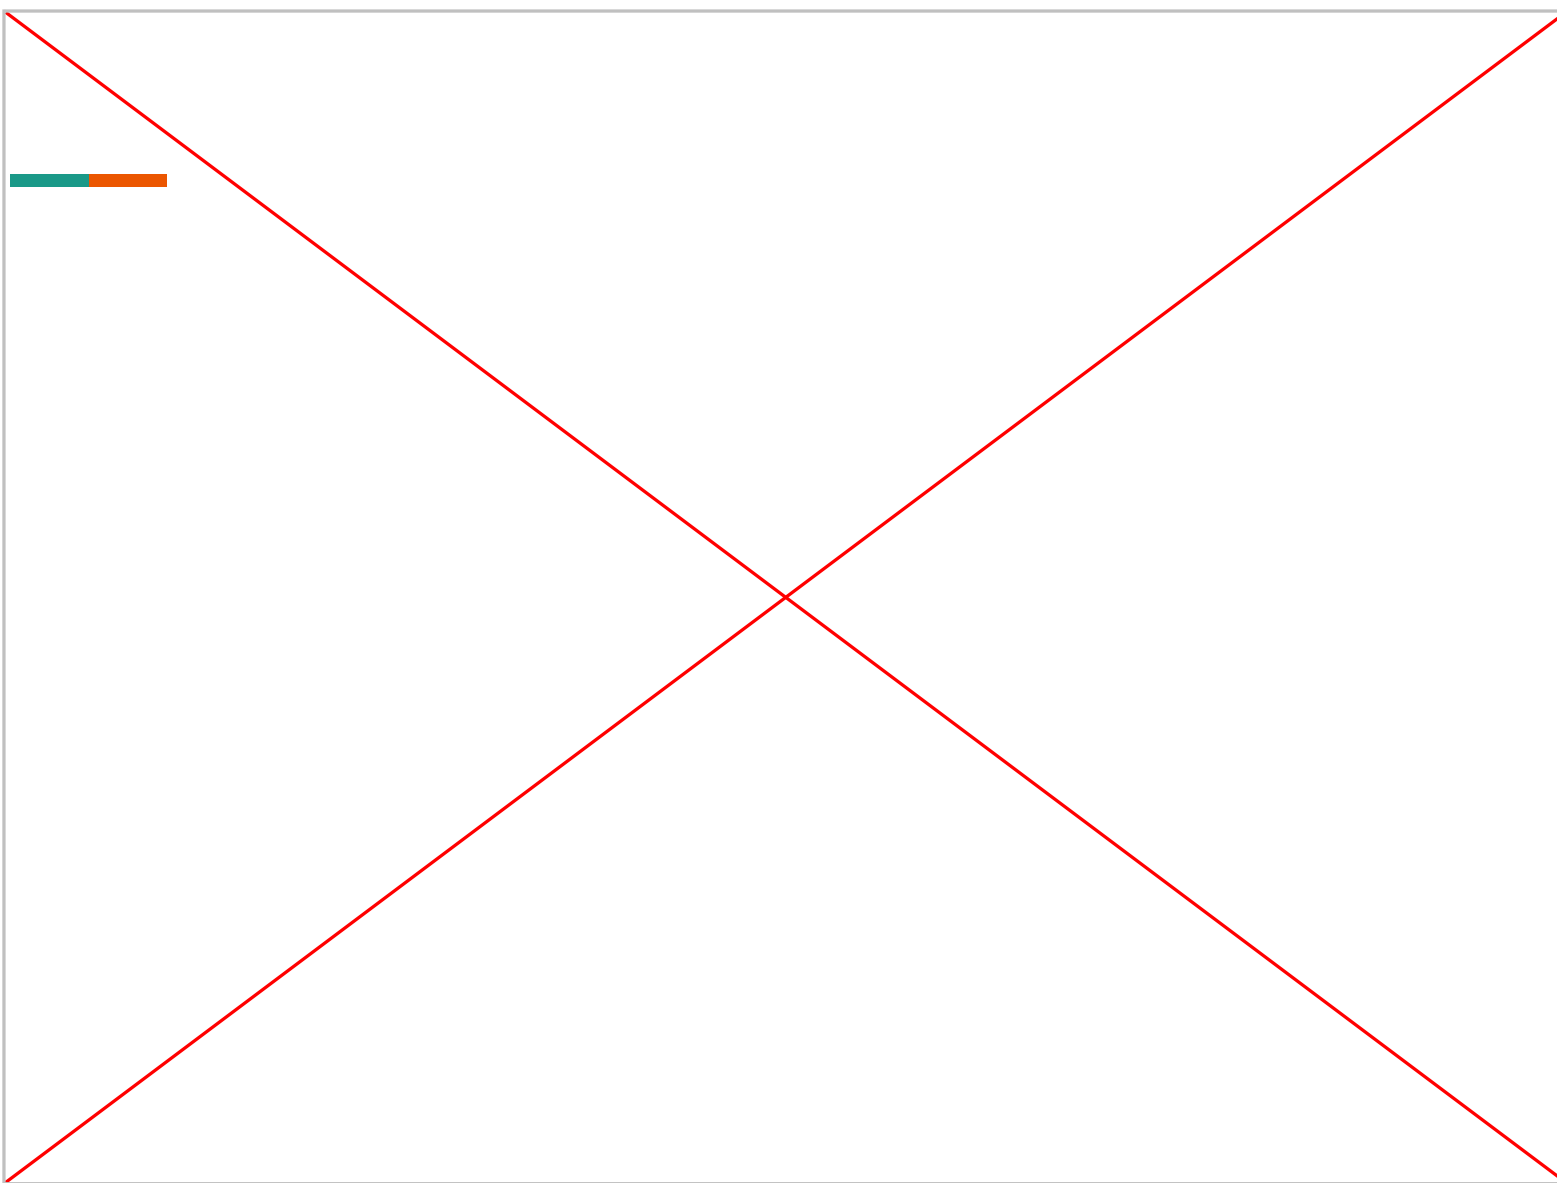

- Informational
- “Reason why approach”
- Used to be “tell approach”: inform customers what was for sale at what price and where once could buy it.

Soft-sell approach

- Emotional; affect-based appeal
- Influence feelings, emotions (rather than thoughts)

They coexists today

May dependent on: agency, client, product, target audience, etc.

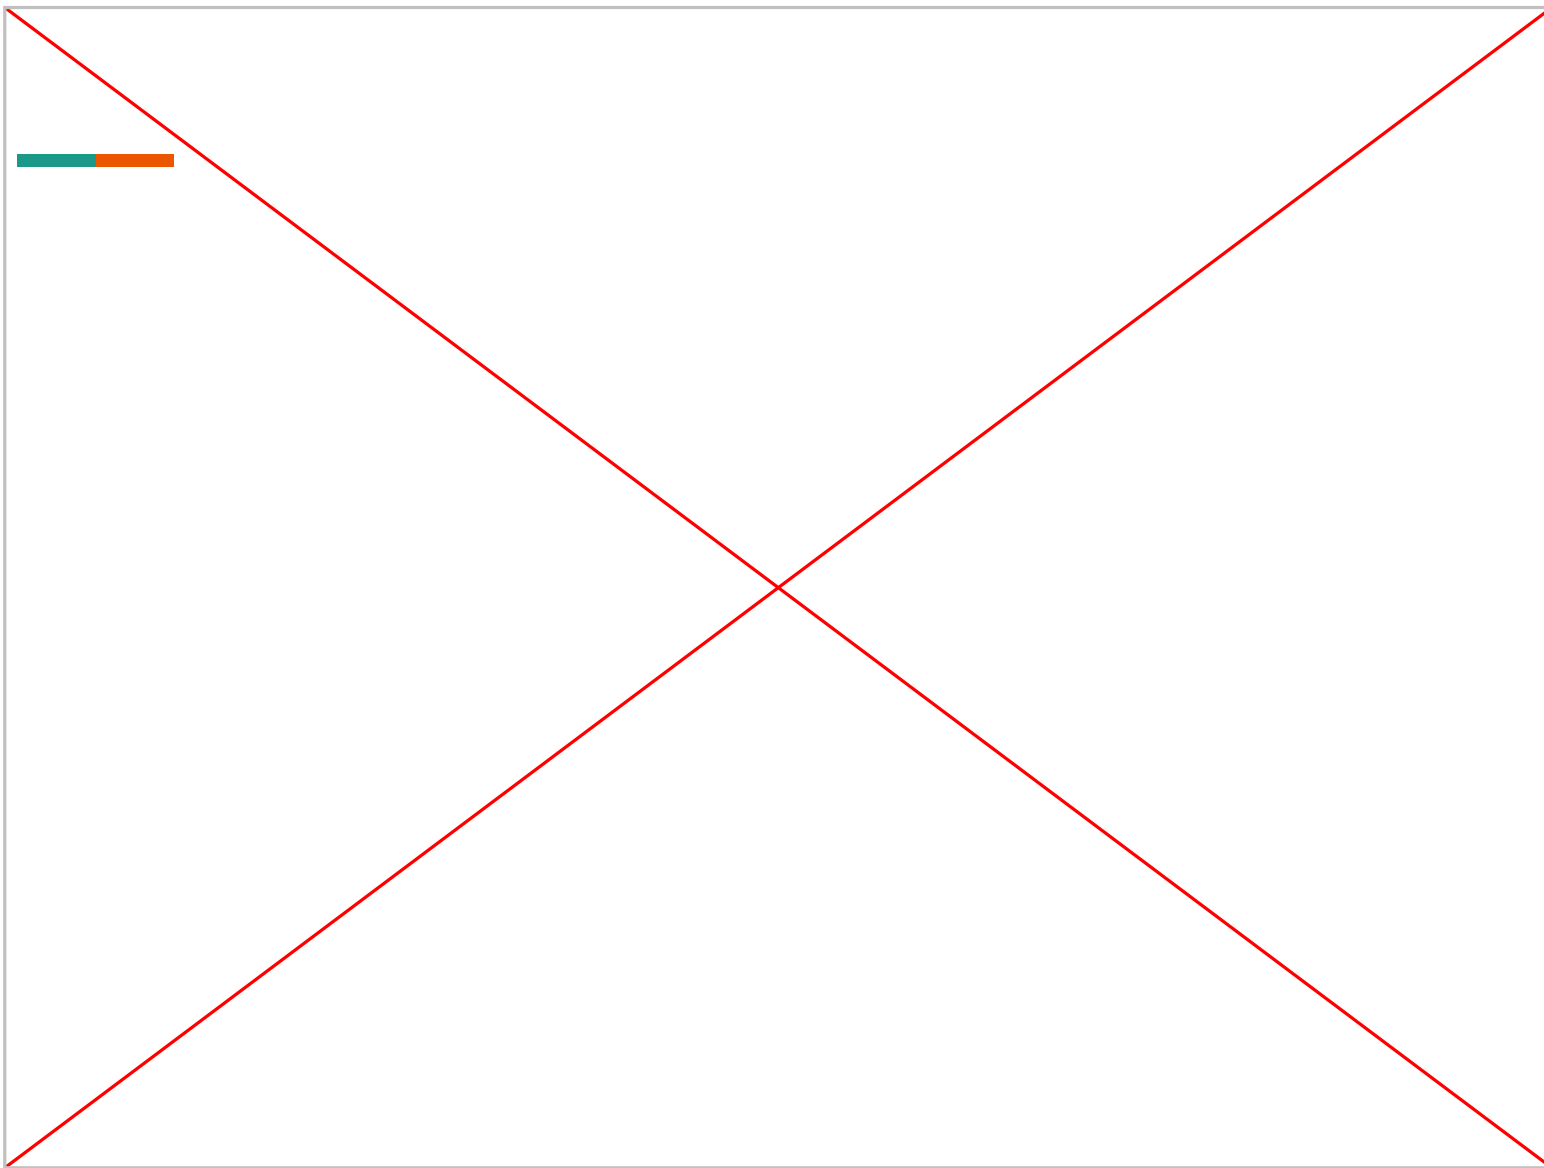

Strategies

ALPHA strategies

Influence the tendency to MOVE TOWARD something
Approach motivation

OMEGA strategies

Influence tendency to MOVE AWAY from something
Avoidance motivation

Psychology

Psychology approach to advertising

Identifying the **EFFECTS** of advertising at the **INDIVIDUAL** level.

Seeks to articulate the intrapersonal, interpersonal, group-level **PROCESSES** (cognitive, in the mind) that are responsible for the relationship between advertisement and the response.

Psychology

ACTIVE processing...

We come to messages with **schemas and ideas** already in place.

We are **active** in evaluating the messages.

We respond in many different ways

Message

Effect

How you know what you know?

How do you know if something is true?

What do you need as evidence?

How you know what you know?

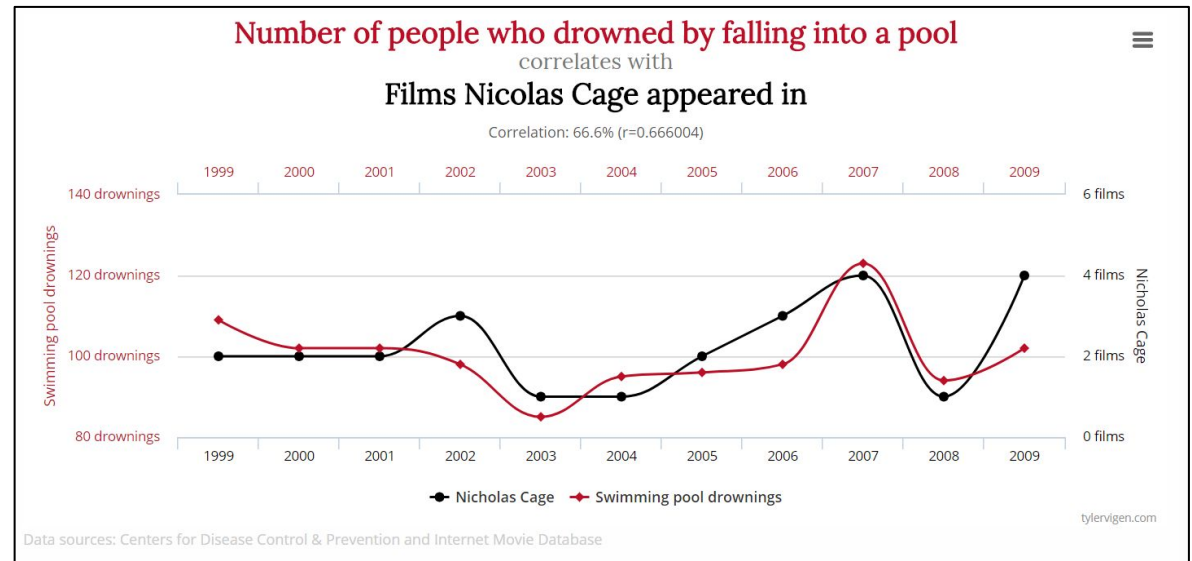

Social psychological approach

Theory-based

Experiment-based

Predictive models

Correlation versus causation

How you know what you know?

Theory helps us to understand the world around us

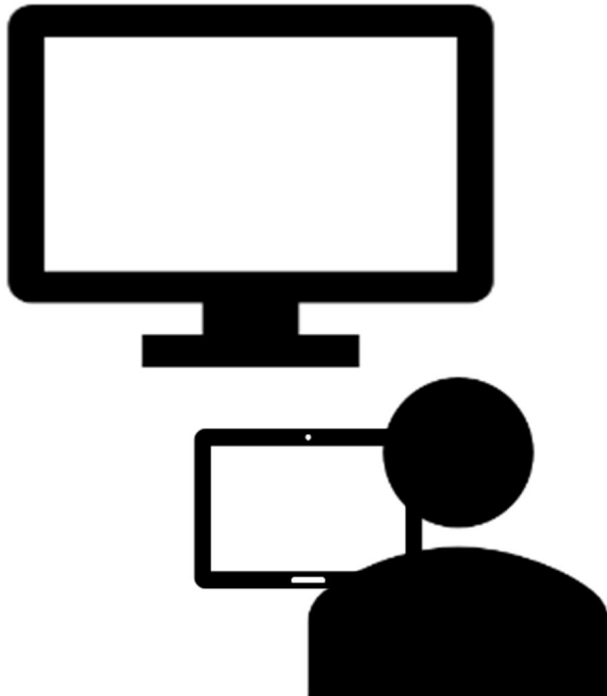

Research is needed to test it

Experiment will help us to test effects

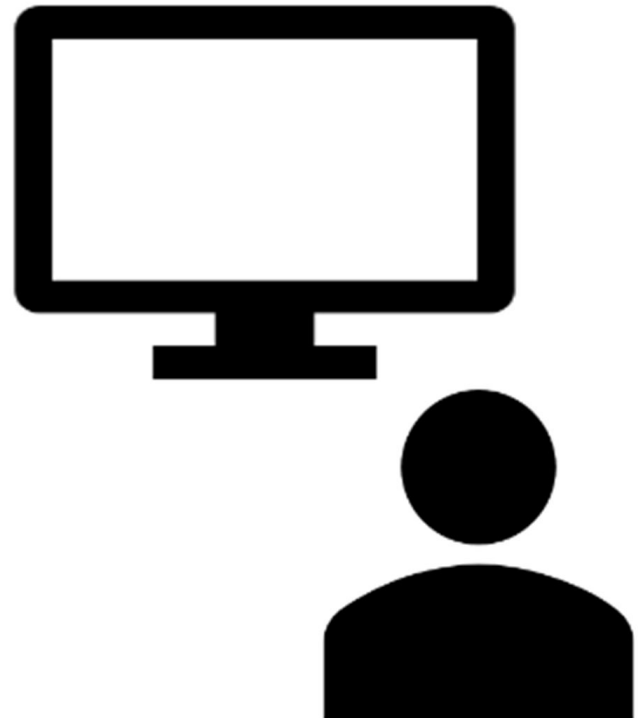

We can predict how people will interpret advertisements

Experiment

Multiscreening

Single screening

Experiment

Group 1
Congruent character

Group 2
Incongruent character

Experiment

1. We manipulate 1 thing that we are interested in (cause)
2. Assign participants to one group/message
3. Ask questions - measure outcome (effect)

Independent variable = what we manipulate (cause)

Dependent variable = the outcome (effect), for example, attitudes, behavior, intentions, memory

How do we isolate the effect of the message?

- **Change only 1 thing between groups in message/task**
- **Random assignment**

Everybody has an equal chance of being in a group so any difference between groups is related to the independent variable.

What makes the difference?

Many factors can make the difference between whether an ad is effective!

You have factors related to...

- The message
- The sender
- The receiver (consumer)
- Etc.

We will look at some of those.

Message characteristics

Argument-based vs. Affect-based appeals

Message sidedness

One-sided: only presents claims in support of position

Two-sided: presents positive and negative or supporting and counter arguments

Source of the message

**Avis is only No.2
in rent a cars.
So why go with us?**

We try damned hard.
(When you're not the biggest,
you have to.)

We just can't afford dirty ash-
trays. Or half-empty gas tanks. Or
worn wipers. Or unwashed cars.
Or low tires. Or anything less than
seat-adjusters that adjust. Heaters that heat. Defrost-
ers that defrost.

Obviously, the thing we try hardest for is just to be
nice. To start you out right with a new car, like a lively,
super-torque Ford, and a pleasant smile. To know, say,
where you get a good pastrami sandwich in Duluth.

Why?

Because we can't afford to take you for granted.

Go with us next time.

The line at our counter is shorter.

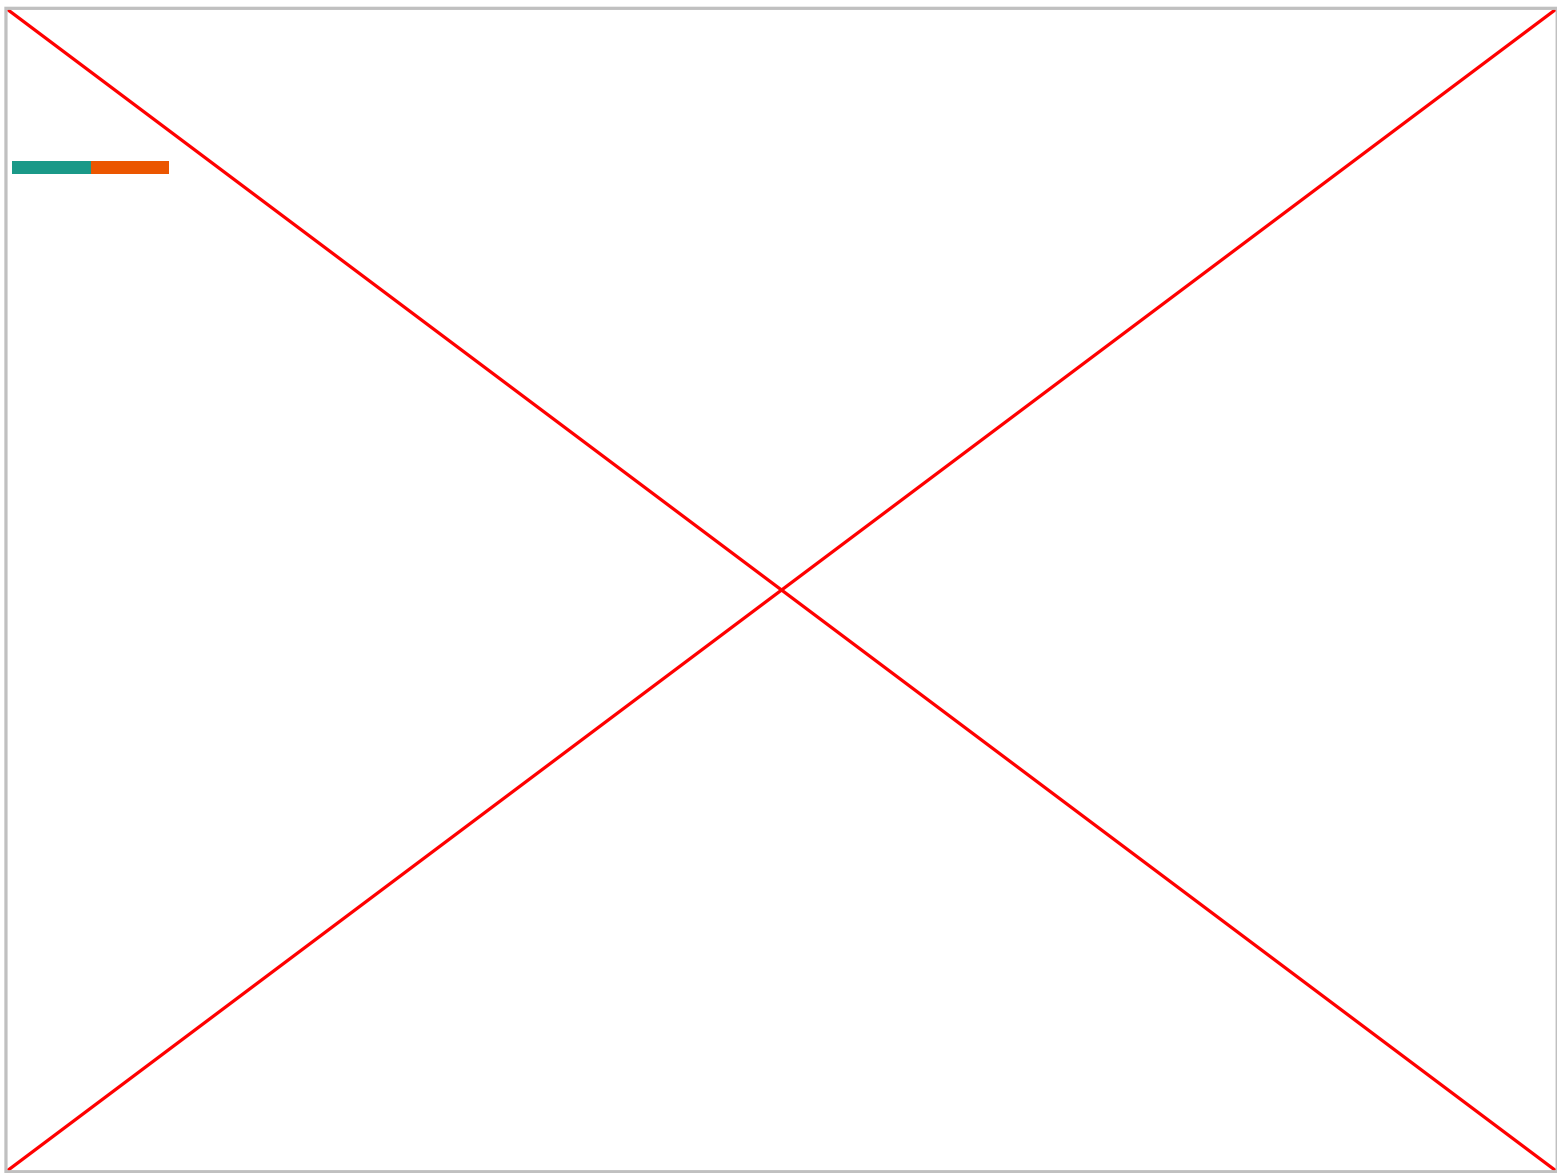

Who is the source?

Direct source

Spokesperson delivers the message (speaking or demonstrating use of product)

Indirect source

Associated with the product, but not delivering the message (not speaking/demonstrating)

KENDALL JENNER

INTRODUCING
**MODERN
MUSE**
LE ROUGE

BE DARING. BE AN INSPIRATION.

#modernmuse

ESTÉE LAUDER

Who is the source?

Direct source

Spokesperson delivers the message (speaking or demonstrating use of product)

In example: Katy Perry

Indirect source

Associated with the product, but not delivering the message (not speaking/demonstrating)

In example: Kendall Jenner

A logo for a company is also indirect

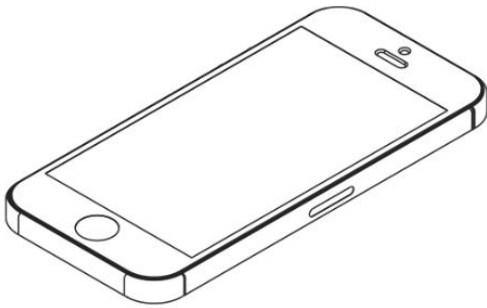

Source effects

Credibility - expertise, trustworthiness

Attractiveness - rubs off on product

What's next?

- Continue reading chapter 1
 - Reading response due Jan 30 before class starts (2:30 pm)
 - Hand in on Canvas: upload Word or PDF document
- Submit assignment 1 by Jan 30, 2:30 pm
 - Install LockDown Browser on the laptop your planning to use for the exam
- Set up notification in Canvas for announcements asap
 - See slides of Tuesday for the instructions

Questions? Email one of the teaching assistants (TAs).

Contact information is available on Canvas.

TA sections will be announced on Tuesday.
